

WHEN I AM FREE

When I am free -- standing out in the open air
Listening to the feelings of my confinement die out with a crackling sound
Like a fire burning out
Spitting its last breath
Watching the treetops of my fears drift off towards the clouds
Blown along by the summer wind.

I can see the clouds -- blowing away
Watching the treetops of my fears drift off towards the clouds
Toward a flaming nite
Choked with purple rainbows of restless intensity
Golden wildfire enshrouds the clouds as they blow away
With spears of starlit morning reflected back as hungry as the day.

The air is a golden pillow of freedom
The sunset waits for my return bringing back a reset relief
Squeezed from life at every turn
Everything enrapt in one memory
Condensed out there from what I can see
Standing out in the open
When I am free.

June 1972

Dear Graduate,

As you turn the pages of this yearbook, you are able to recapture a glimpse of your high school years. Not only do you recall classmates and teachers, but you also review events, large and small, as well as many memories of days gone by.

Your experiences include the sum total of the education that was offered to you. You were exposed to the accumulated knowledge of the various subjects you studied. In addition, there were intangible offerings that represent other important goals of education, such as character development, respect for the rights of others, appreciation of our American heritage and a willingness to gather all the evidence needed to form a conclusion.

Over a hundred years ago, the great thinker, John Stuart Mill put this latter idea as follows:

"He who knows only his own side of the case
knows little of that..."

He pointed out that it is not enough to know only the theory and facts in favor of an idea. It is also important to be familiar with the arguments against it, as well, if one is to know "...the truth, the whole truth, and nothing but the truth." This calls for open-mindedness, readiness to keep on learning, and alertness to new ways of thinking and doing.

As you continue through life, try to keep these ideals as a guiding star. Best wishes for success and personal fulfillment.

Sincerely,

Maurice Bleifeld

ADMINISTRATIVE ASSISTANTS

Note: As of March, 1972, Mr. Kaye was appointed principal of Flushing High School.

Reflecting on the years gone by, as we at Van Buren bid you a fond goodbye with the traditional flurry of congratulations and best wishes, I hope you agree that much has taken place that bodes well for our future.

Recent times have seen a diminution of the generation gap as you realized that adults (teachers and parents) wanted, just as you did, the end of war and violence, cleaner air, productive soil and unpolluted water, racial harmony, an end to poverty, disease and hunger, less superficiality and materialism, and more reality and morality. To my mind, the educational environment at Van Buren has provided the ammunition for an attack on these ills of society. Changes in teaching methods, curricular innovations, and administrative cooperation have provided opportunities for you to enjoy the freedom in inquiry, to become aware of and tolerant of a diversity of viewpoints, to be yourself and express yourself, and to emphasize the processes of thinking, imagining, and inventing. Your concern and curiosity about people, ideas, values, and knowledge have been evident in this vibrant learning-teaching climate.

The problems in your future lives will surely be as complex and difficult as they are today. But you, as generations before you, will be equal to the task. I am confident that you'll meet your responsibilities and that the world will be a better place because of you.

May I offer my continuing best wishes for your success, health, and happiness.

MARTIN B. KAYE

On the eve of your departure from Van Buren you must surely marvel at the speed with which time has flown. Wasn't it only yesterday that

And yet, so much living and learning and growing have gone into that short span. From unformed and uncertain boys and girls, you have matured into thoughtful young men and women, ready to step out beyond the shelter of home and school into the wider world of college, work, and personal responsibility. Our hopes and prayers go with you.

Your absence will be felt, but the many innovations, achievements and honors that you have brought to Van Buren will remain to remind us of your special contributions as individuals and as a group.

These, however, may not be quite enough for your teachers and friends. Do write, do come back and visit. From time to time, we will welcome your presence and the joy of sharing, face to face, the exciting experience that will have been yours.

It is with mixed feelings of pride and loss that we see you off. Bon voyage!

IDA S. SHAPIRO

I have heard the joy of laughter ... I have heard the muffled sobs of despair.
Upon me have rested the weary ... upon me have sat the alone. I am where
people can talk ... I am where one sits alone with no one to talk with. I have
listened to the wail of babies whose diapers were being changed ... I have heard
the weeping and felt the tears of the old. I am where plans for the future are
made ... I am where people who have no future ponder the past. I am where
people play ... I am where the game is all but over. I am not all wood, stone and
metal.

I am alive!

(My heart lives in the eye of a camera in the hands of an artist)

Yes, I am a park bench.

Reflections of the sun through the trees
freshens the earth with its smile
Traces of life flourish with joy
And makes a day seem worthwhile

While the sunset harmonizes the heavens above
The peaceful slumber embraces the night
With a dark veil of sadness and love

We were a mystery. No one understood us. We could not understand them. We were caught up in a storm that only patience, love and strength could quell. We were like this because we could not talk, we could not listen, we could not relate, and we could not communicate.

The gap was getting wider and wider. We were in school a good part of our lives. But besides the knowledge in books and the enjoyment of sports and clubs, where were we? The world we would enter when we graduated was torn apart. After High School it would be our world. We had to piece it back together. We would not be sheltered from the blame any more. We are the world and to better it we had to be able to get through to one another. There had to be some kind of social relevancy. High School had to prepare us for that.

We looked, both teachers and students, for a way to bring about ties. But first we had to learn to be giving as well as receptive. We used devices such as the leadership sensitivity groups, Human Relations, Black Awareness and The Friendship Alternative, where people could go and take a good look at themselves, their school and others.

Van Buren has changed socially over the past 4 years we have been here. We have opportunities now to learn to make ourselves and others beautiful, through the love and the strength we have given each other. The distances between mankind will surely close.

Shari Holtzclaw

The finest qualities of our natures, like the bloom on fruits, can be preserved only by the most delicate handling.

—Henry David Thoreau

Lie down on the grass and close your eyes

Empty your mind of thought

And listen

to the wind blowing

or your heart beating

a dog barking in the distance

Then open your eyes. Look

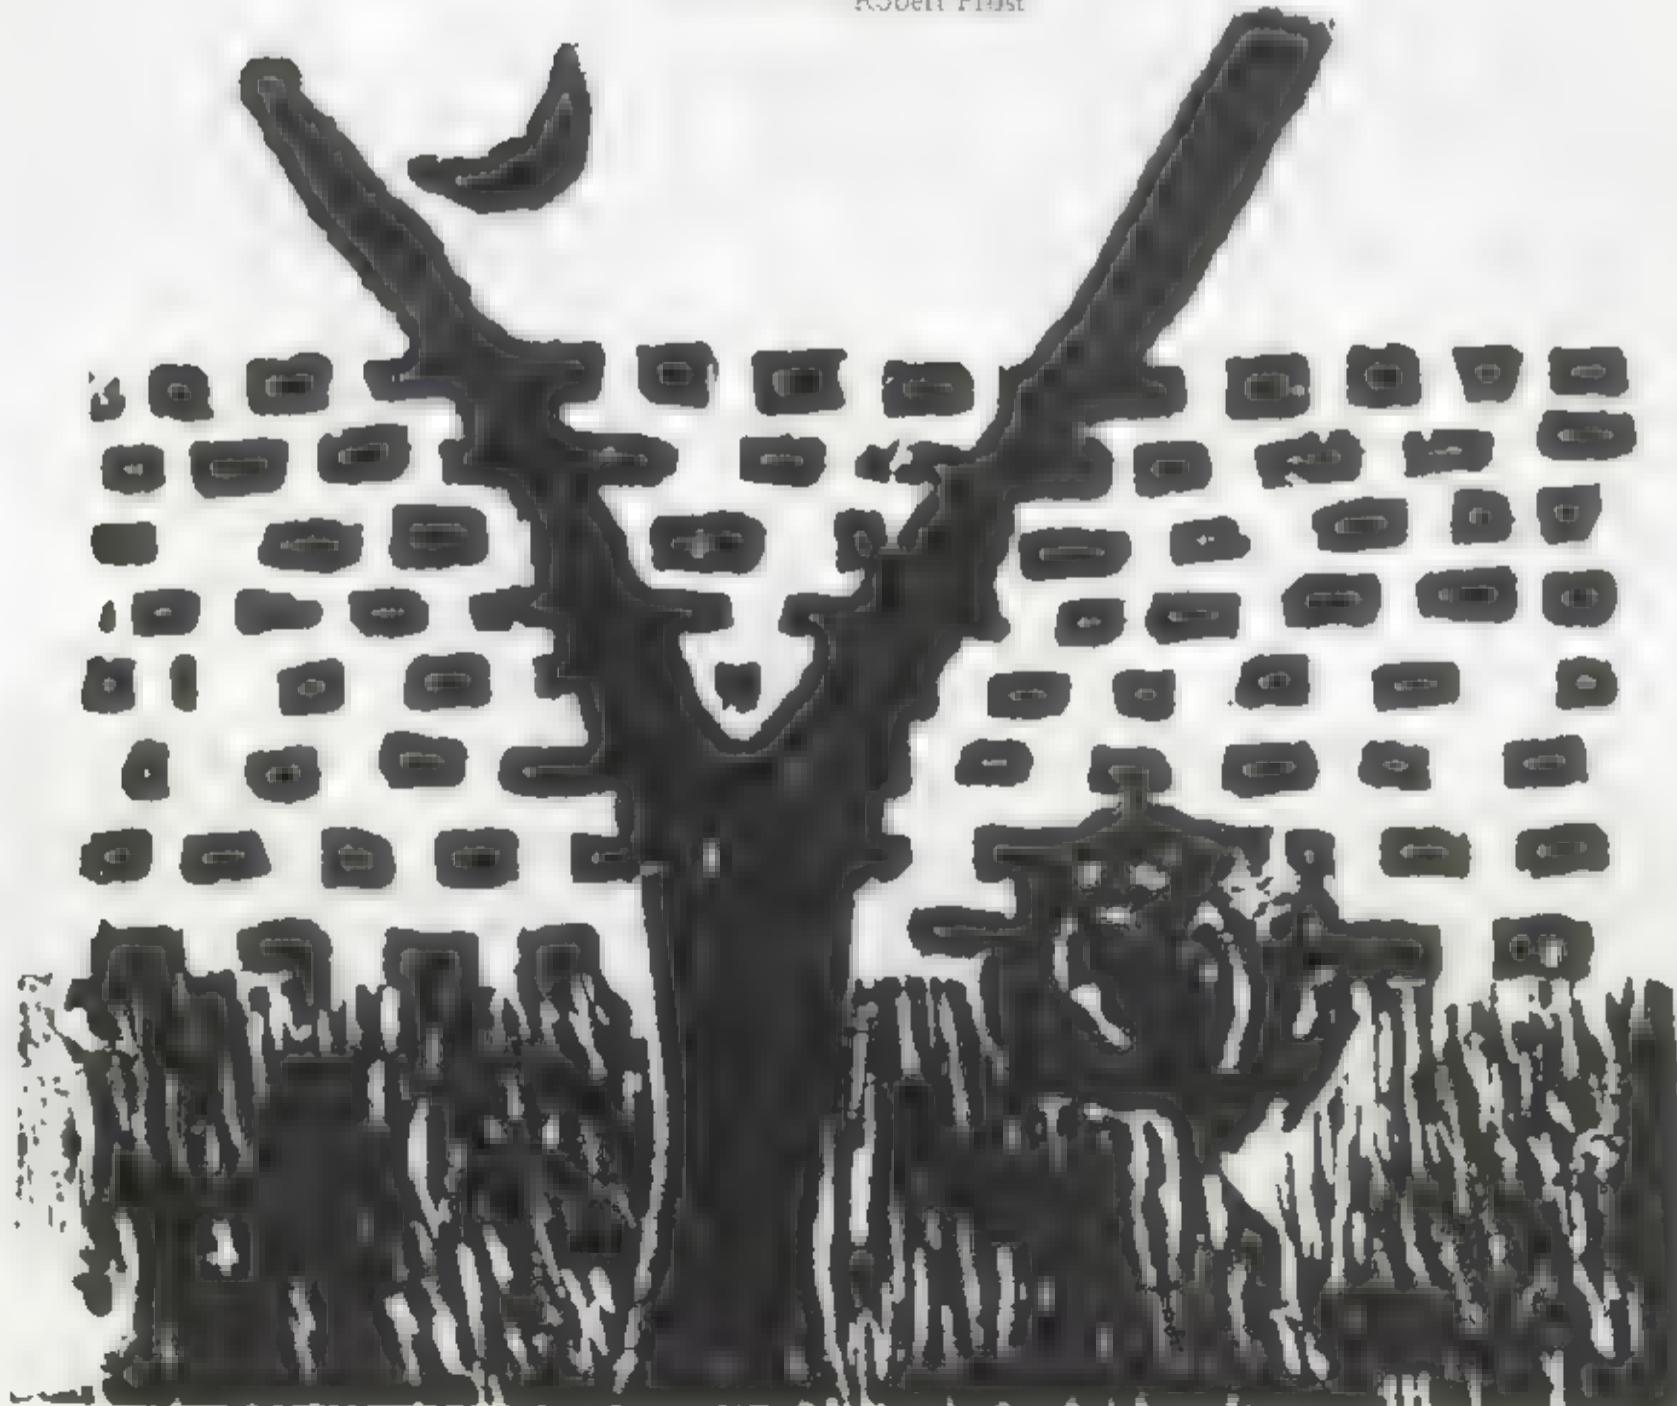

And bump your head on the sky

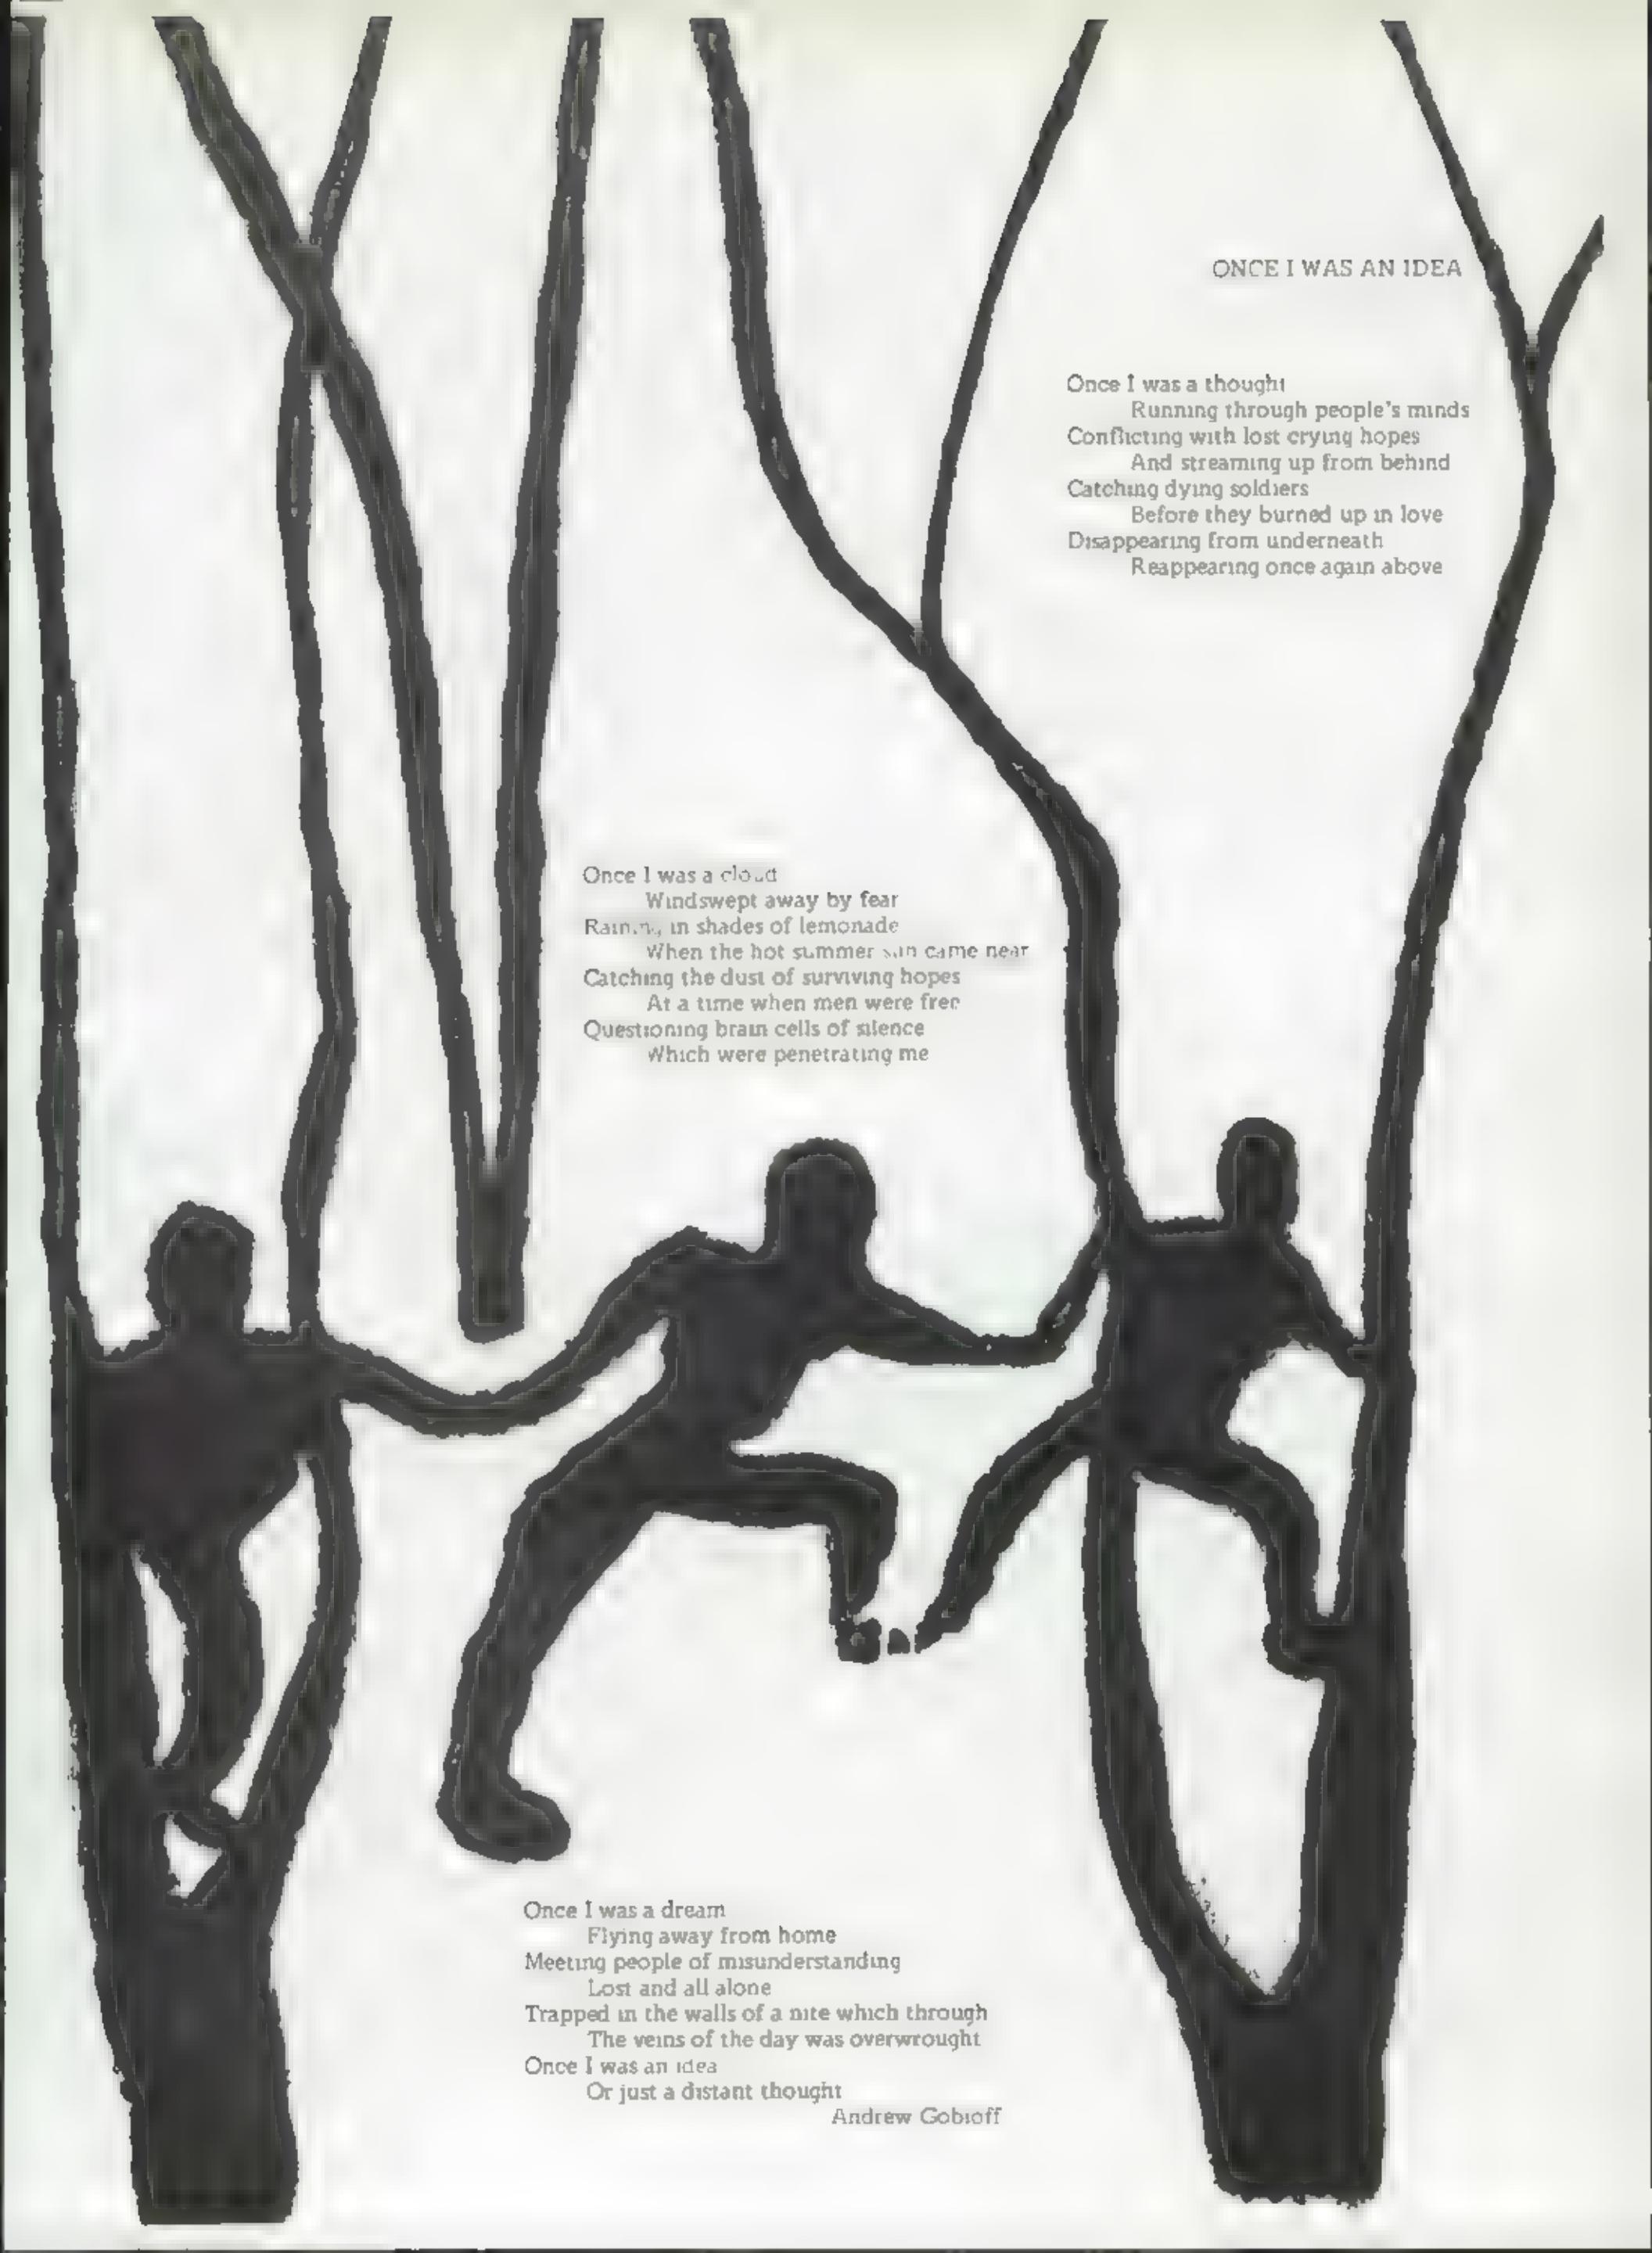

Andrea Kress

Nature does not complete things
She is chaotic. Man must finish
and he does so by making a
garden and building a wall

Robert Frost

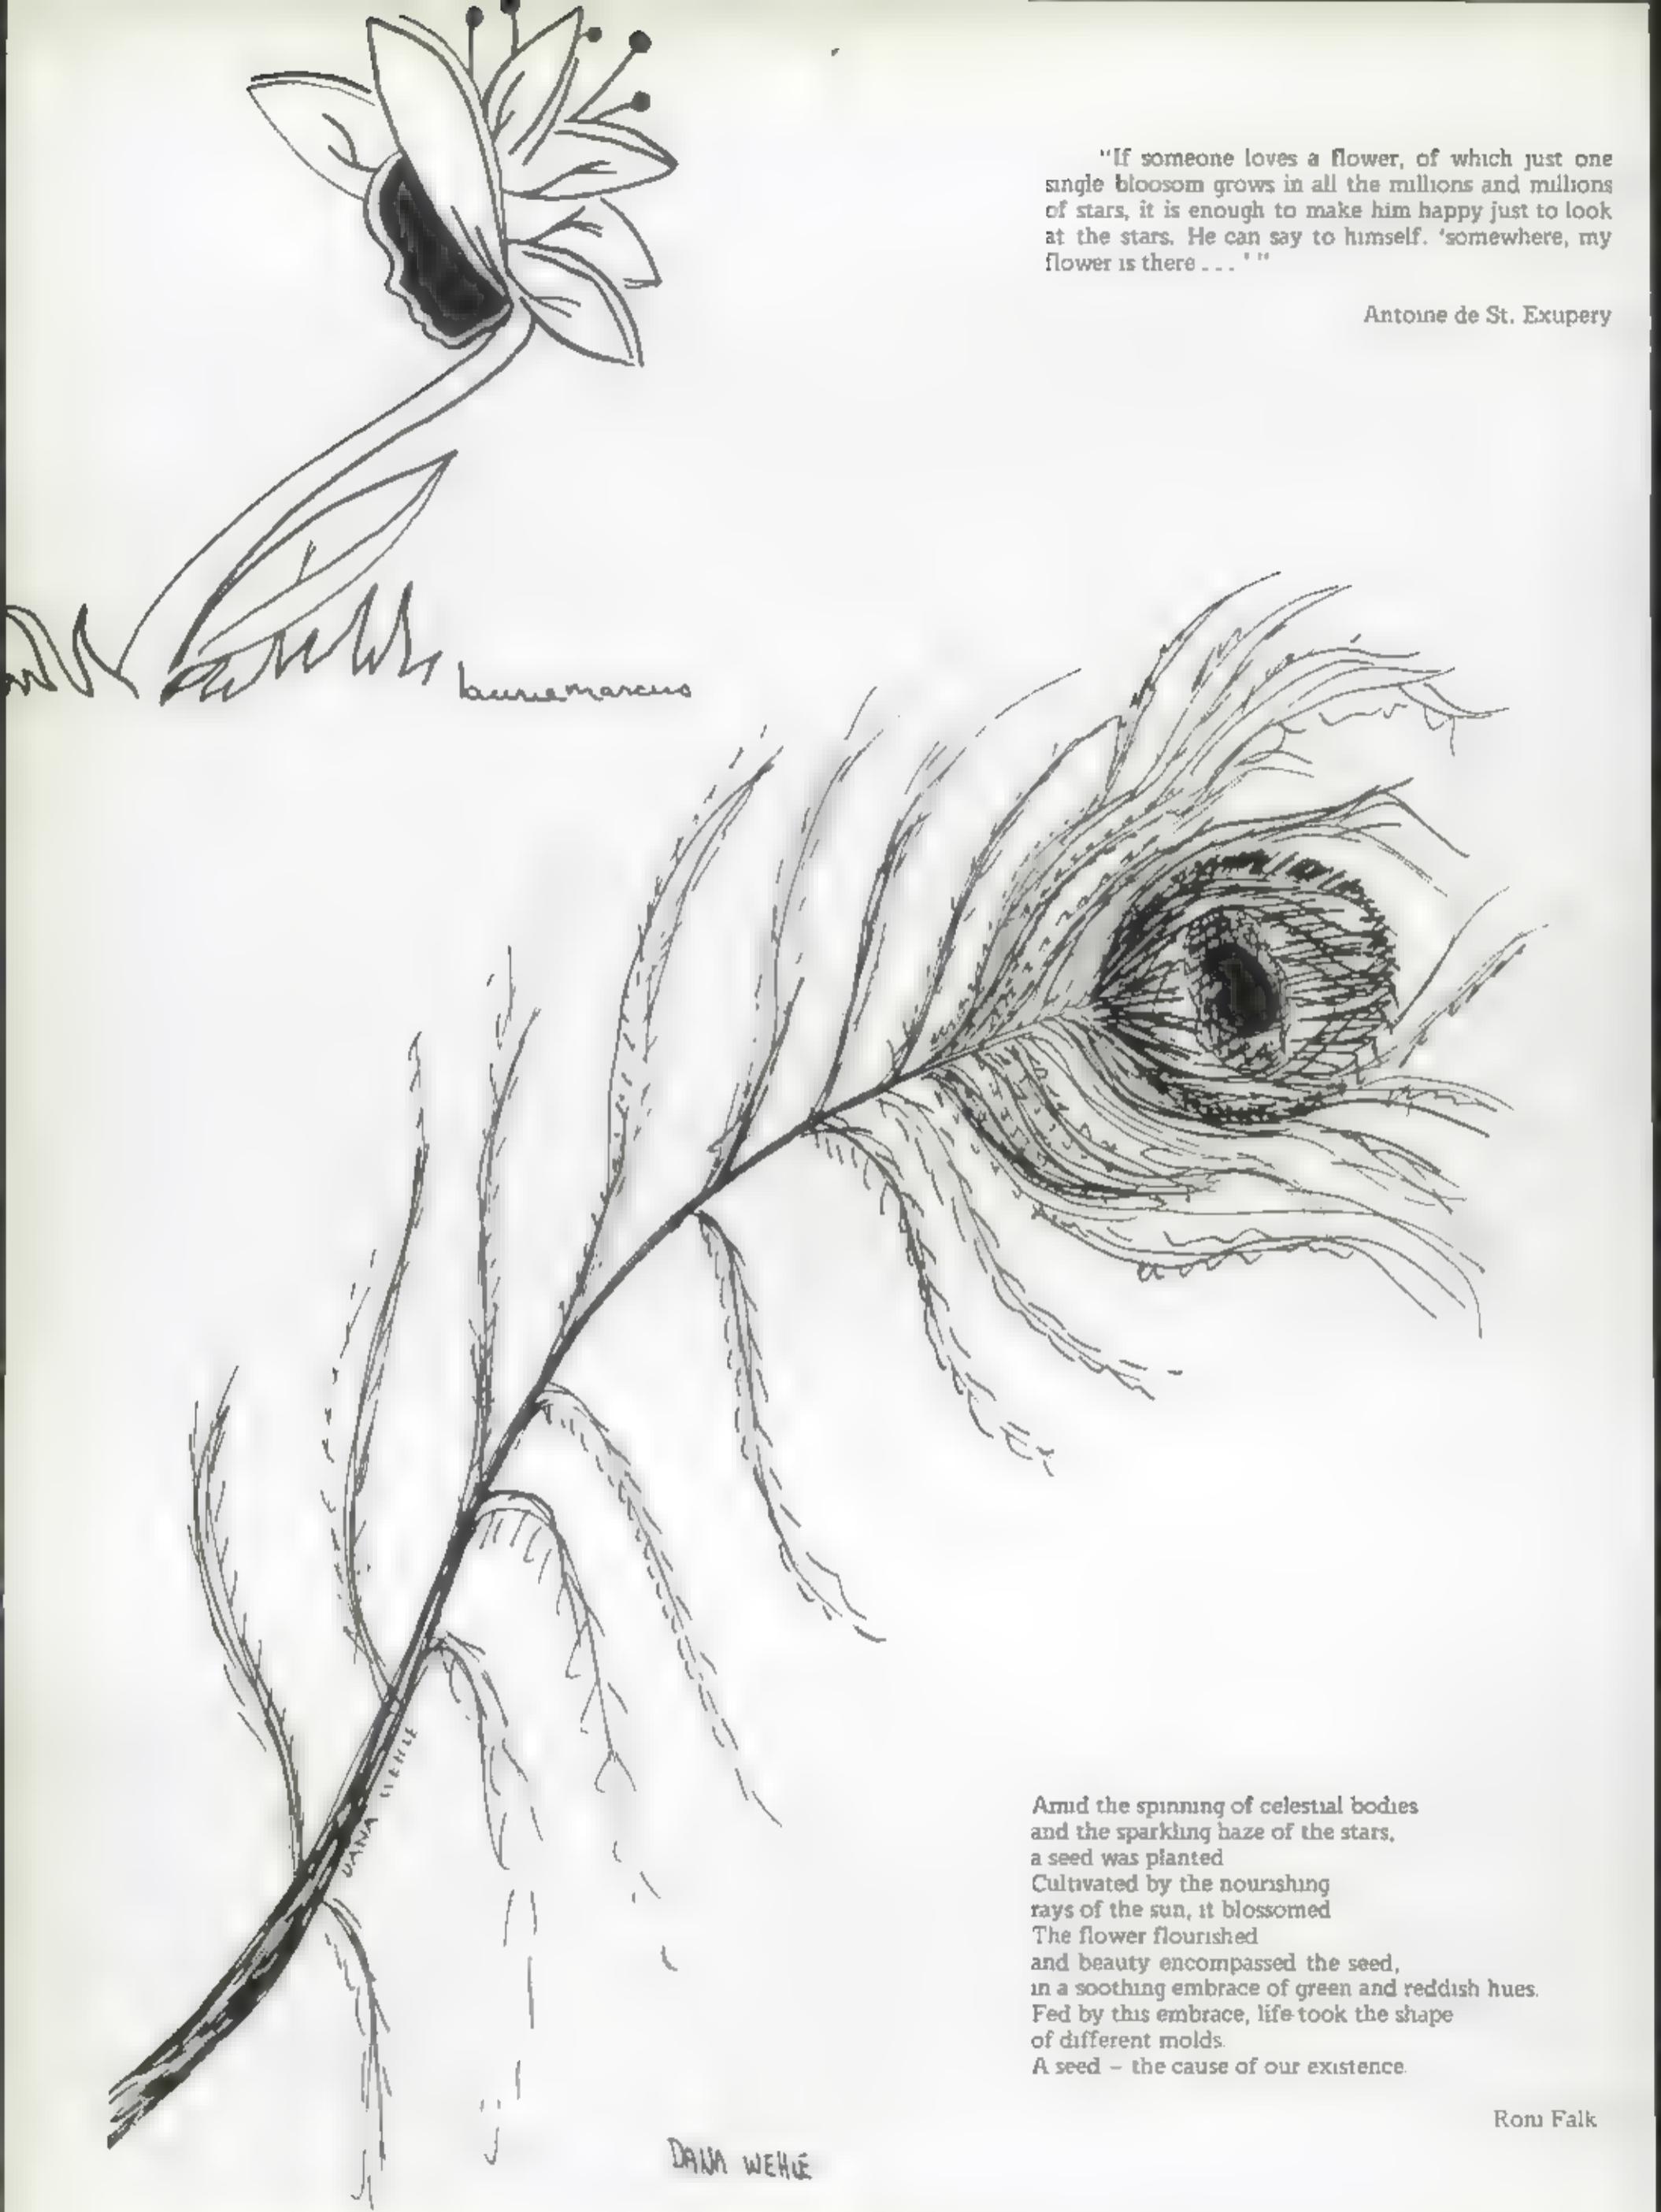

ONCE I WAS AN IDEA

Once I was a thought
Running through people's minds
Conflicting with lost crying hopes
And streaming up from behind
Catching dying soldiers
Before they burned up in love
Disappearing from underneath
Reappearing once again above

Once I was a cloud
Windswept away by fear
Rainbow, in shades of lemonade
When the hot summer sun came near
Catching the dust of surviving hopes
At a time when men were free
Questioning brain cells of silence
Which were penetrating me

Once I was a dream
Flying away from home
Meeting people of misunderstanding
Lost and all alone
Trapped in the walls of a nite which through
The veins of the day was overwrought
Once I was an idea
Or just a distant thought

Andrew Goboff

"If someone loves a flower, of which just one single blossom grows in all the millions and millions of stars, it is enough to make him happy just to look at the stars. He can say to himself. 'somewhere, my flower is there . . .'"

Antoine de St. Exupery

Amid the spinning of celestial bodies
and the sparkling haze of the stars,
a seed was planted
Cultivated by the nourishing
rays of the sun, it blossomed
The flower flourished
and beauty encompassed the seed,
in a soothing embrace of green and reddish hues.
Fed by this embrace, life took the shape
of different molds.
A seed – the cause of our existence.

DANA WEHRE

YOU ARE SO OBLIVIOUS
TO YOUR SURROUNDINGS,
THAT IF I ASKED YOU WHAT
THE WORD "WHY" MEANT,
YOU'D JUST STARE AT ME.
BUT, DON'T STARE AT ME,
STARE AT THE SKY, AT THE
GROUND, AT YOURSELF, AT
YOUR FRIENDS AND AT LIFE.
LIFE IS THERE FOR YOU
AND I TO TAKE A BITE AT IT
AND TO LOVE IT. DON'T BE-
HAVE LIKE YOU OWE SOME-
THING OR THAT IT'S A PRIVI-
LEGE TO LIVE. WE ALL HAVE A
RIGHT TO BE HERE, YET DON'T
TAKE THE BIRD'S LIFE OR THE
PLANT'S OR YOUR OWN WITH
THE POWER OF DESTRUCTION.
LIVE WITH OPEN EYES AND
UNDERSTANDING.

ANDREA FITELL

Crystal words, frozen
in a silence
numb with fear,
cast off their frigid waste
and shed a tear
that turns the world
into spring

Ugly hearts frozen
in a waste of last year's love
awake renewed, with warmth
revived
that sets them free
to roam the plains
of summer sky alive

Frozen song tight in the throats
of the drugged ice,
burst forth with joy
as they thaw to the world
aflame with a new life,
a new world,
a new song

DANA WEHLE

To Let You Know

God! It's good to have you 'round
Where anytime there can be found
A friend to trust and talk to
A friend I never ought to
Let you down.
Sorry if I'm not acting just how you'd like to find me
But any way you see me — well, I am
I know, you know
No apologizing need be done — but sometimes I'm just no fun
understand
You bring me up — you never let me down
Do you love me? Do you hate me?
1 to 10 — how do you rate me?
Tell me 'cause I really want to know
Do you love me like I love you — does it show?
Stick with me — I really need you now
Just tell me once — tell me twice
That bein' with me is really nice
'Cause lately I have trouble believin' how
I'm a friend you never ought to
Let me down

by Bennet Harris Horowitz

Twilight descends on our city
The neon lights blare out
Wait
The time has not yet come,
Smoke curls from the buildings
mouths
Adding to the dark amber
sunlight
Clouds, floating by like disheveled
demons
Darken the sky
One person alone, skirts around
the dark dampered cellars
And old cracked hallways
How fast the city empties
The people rush home to emptiness
Only to come back on the morrow

Deborah DeAngelo

DANA WEHLE

*When I'm alone" — — the words tripped off his tongue
As though to be alone were nothing strange
When I was young ' he said 'when I was young
I thought of age and loneliness and change
I thought how strange we grow when we're alone
And how unlike the selves that meet and talk
And blow the candles out and say good night
Alone . . . the word is life enured and known
It is the stillness where our spirits walk
And all but inmost faith is overthrown*

OUR SENIOR OFFICERS

Mr. Marv Miller

Dear Friends

If words must be inscribed upon this page, then let them be words of time and memory, and may they become yours as well

From "Song Of Myself"—Walt Whitman

There is that in me—I do not know what it is—but I know it is in me
Wrench'd and sweaty—Calm and cool then my body becomes, I sleep—I
sleep long

I do not know it It is without name—It is a word unsaid, It is not in any
dictionary, utterance, symbol

Something it swings on more than the earth I swing on, To it the creation
is the friend whose embracing awakes me

Perhaps I might tell more, Outlines! I plead for my brothers and sisters

Do you see O my brothers and sisters?
It is not chaos of death—It is form, union, plan It is eternal life—It is
HAPPINESS!

Sincerely
Marv Miller

OUR SENIOR PRESIDENT

Stacy Krasilovsky - President

"There is a time in every man's education when he arrives at the conviction that envy is ignorance; that imitation is suicide; that he must take himself for better for worse as his portion; that though the wide universe is full of good, no kernel of nourishing corn can come to him but through his toil bestowed on that plot of ground which is given to him to fill

A man is relieved when he has put his heart in his work and done his best . . .

Trust thyself and accept the place the divine providence has found for you, the society of your contemporaries, and the connection of events

When Ralph Waldo Emerson wrote these words in his essay SELF-RELIANCE, he expressed how important individuality and working hard was in the 1800's. Yet in 1972, individuality is equally as important. We have proven ourselves to be distinct people, each with a separate gift to offer the world. I am sincerely honored to have served as president of such a unique and extraordinary class -- the Senior Class of 1972

HEARD OFTEN AROUND THE YEARBOOK OFFICE

When's the deadline?
2 months ago
When will the book be done?
Who cares?
I have to go to the bathroom
Where's Jimmy?
Who's Jimmy?
This book is for the birds!
I'm glad you think so. The theme is nature
I don't really have a crush on him, but he looks like Livingston Taylor
I'm not taking yearbook again unless they pay me a million dollars
Oh, Mrs. La Spina's going to kill me
Don't worry, Shelly. It doesn't hurt. She killed me yesterday
What time is it?
3:00
I told you not to say that. They all go home and watch soap operas
I gotta make dinner
But Mr. La Spina really doesn't like the sauce on the spare ribs
Stephie is outside talking to a B.O.Y. Let's tease her
I really have to go to the bathroom
I'll be nice from now on. . . . Eileen you're an idiot
You can't be nice, it's not your "Nature"
Oh, what a great theme for a yearbook
N is for Nancy
20 pages is all we have left
PAUL IS A SENIOR!
Fran just fainted
Ah, ah, my root canal.
It could be worse It could be me
I must go to the bathroom
Boy, this office is really crowded when there's a lot of people here.
It's a good thing no one ever shows up
Ya mean it really hit your sister?

Mrs. La Spina.WE LOVE YOU

REMEMBER

WENDI LEE

A review of our past four years at Martin Van Buren High School reflects the changes that have taken place. While the scope of the world has experienced social, political, and economic changes the students at Van Buren have been swept along with the tide.

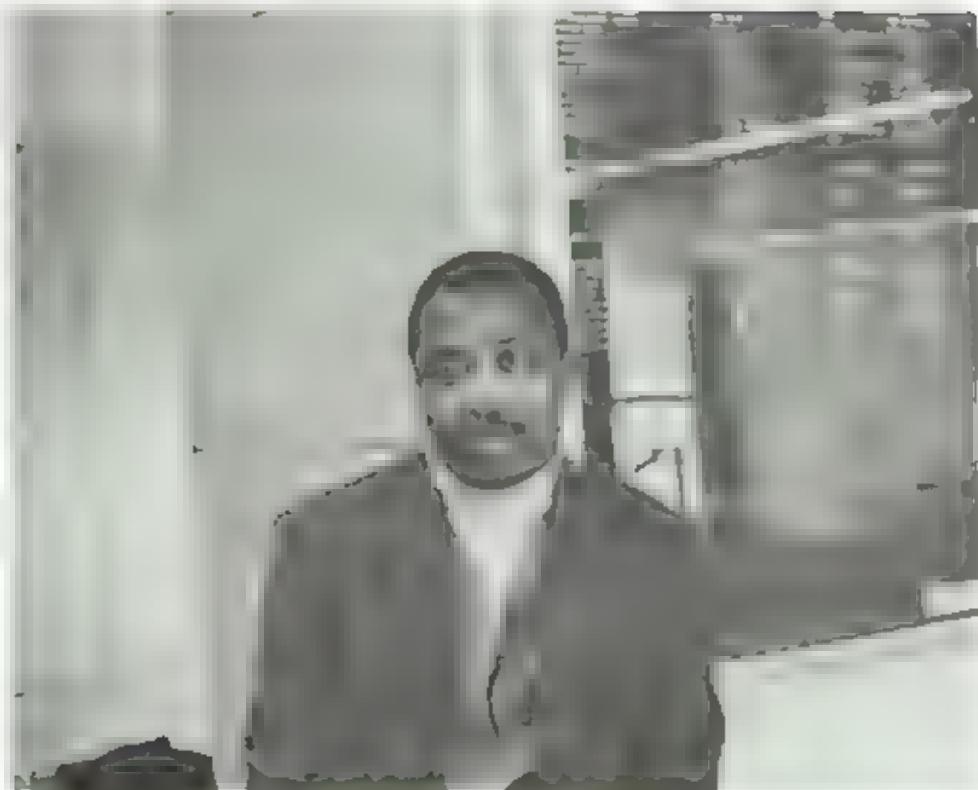

On the following pages we have tried to catch some of these innovations as well as the habits of the students and staff of our school. As we say our final goodbyes, Do you remember the days when .

you came to school and things just didn't look right?

... you had periods 1 - 8 without lunch and you would eat almost anything?

“nobody but masses”

“there were only two teachers left in the school and they wouldn’t eat together”

...you'd do almost anything so that you wouldn't have to go to school?

...he finally asked you out on a date?

...you were the only one who showed up for a religious holiday, and the teacher made you work?

... there were more teachers outside the school than inside?

... somebody put bubble gum on the ceiling and the basketball got stuck?

... the teachers were so bored with their lessons, that they fell asleep?

the teacher said, "jump" and you did?

when no one showed up for Monday morning?

...classes were in the classroom and not in the halls?

...you forgot to shave your legs?

...we used to say the
Pledge of Allegiance
in class"

the teacher saw you take a pill and
knew it was an aspirin'

...you wished you
could do something
to the teacher you
didn't like?

...the teacher just couldn't face the class?

...you had your hand up and when the teacher finally called on you, you forgot the answer?

...your hygiene teacher called you in the office to tell you that you had bad breath?

...the teacher wanted to show a film, but the projector didn't work?

...the curriculum consisted only of math, science, social studies, English...?

...you tried to blow the horn when you had bubble gum in your mouth?

Mr. Bleifeld spent 20 minutes congratulating a girl and found out he was at Cardozo's graduation?

you only went blank for a test?
